

ADVANCED DIPLOMA IN TEACHING METHODOLOGY

Overview of the Programme

The aim of Teaching Methodology Programme is to equip students with the knowledge, skills and characteristics required of a teacher in line with the individual scope of practice. The programme contains didactic and clinical components, formulated in order to maximize application of the teaching-learning process in the classroom and clinical settings. Students will study micro teaching skills and carry out teaching practice in the classroom and also in the clinical environment. Students will be attached to College of Nursing or College of Health Sciences so that they can observe and involved in the activities of the college.

Programme Learning Outcomes

At the end of this programme, students will be able to:

1. Acquire and apply the scientific knowledge in performing curriculum, objectives, content and methods of assessment in the field of health sciences.
2. Demonstrate skills related to current teaching methodology and technology.
3. Identify, formulate and deliver creative, innovative and effective solutions in teaching and learning related to the field of health sciences.
4. Communicate effectively in the form of writing and conversing between nurses, patients, family members and other healthcare professionals.
5. Function effectively as an individual or in teams with the ability to become a leader.
6. Understand and perform ethically the responsibilities of professional and humane, in line with the Nurses' Code of Conduct.
7. Recognize the need for and to engage in life-long learning and professional development.
8. Self motivate and enhance entrepreneurship skills for career development.
9. Realize and demonstrate effective leadership responsibilities.

Programme Structure

SEMESTER 1			
Category	Code	Course	Credit
Core Courses	MEB 1001	Educational Psychology	2
