

**ULTRASOUND GUIDED VASCULAR
ACCESS DEVICES: THE INTERNATIONAL
RADIOLOGIST'S ROLE**

Vascular access complications are amongst the most common problems that negatively impact the outcome of endovascular procedures. In this workshop we will guide the participant as through step-by-step process and hands-on opportunities. The content from these workshops will be posted, when available, along with the case demonstrations provided here, and they are designed to improve patient safety and outcomes.

Those of us who have made the change to the new standard of ultrasound-guided access can attest to the measurable difference it has made. We encourage you to take advantage of this educational opportunity. It will change the way you practice, from head-to-toe!

REGISTRATION FEES

- **Master Student (Radiology)
RM50**
- **Non-Master Student
RM200**

Venue

- **Dewan Jermelang UM**
- **Clinical Skill Lab UM**

For more info**

At the completion of the program, the participant should be able to:

- Demonstrate the participant's knowledge to better perform ultrasound-guided vascular access procedures
- Demonstrate proper transducer manipulation and system optimization to produce diagnostic images.
- Differentiate venous vs. arterial anatomy by ultrasound.
- Identify ultrasound imaging characteristics of vessels and contiguous anatomy to determine the optimal approach for vascular access.
- Demonstrate ultrasound imaging characteristics of vascular pathology that would indicate a vessel is not suitable for vascular access..
- Demonstrate the use of ultrasound guidance for Peripheral Line vascular access.

PROGRAM TENTATIVE

Day 1: 3 October 2015

0830-0900	Registration
0900-0930	Vascular access- Where,When and How Dr.Norshazriman Sulaiman
0930-1000	Vascular access device Serene Lim(Bard)
1000-1030	Tea Break
1030-1100	PICC insertion video
1100-1130	The tunneled PICC A/P Anushya Vijayananthan
1130-1200	Complication of vascular access A/P Dr Sobri Muda
1200-1330	Lunch
1330-1630	Practice Session: <ul style="list-style-type: none"> • Ultrasound guided puncture • PICC insertion
1630-1700	Tea Break

Day 2:4 October 2015

0900-0930	Chemoport insertion-tips and tricks Dr Nur Adura Bt Yaakub
0930-1000	Tea Break
1000-1130	Chemoport insertion video
1130-1300	Practice session: <ul style="list-style-type: none"> • Ultrasound guided punctures • PICC insertion • Chemoport insertion
1300	Lunch
